EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Abstract, p.13, line 2, following "case" --for a miniature fuse-- has been inserted.

2. The following is an examiner's statement of reasons for allowance:

the allowability resides in the overall structure of the device as recited in sole independent claim 1, and at least in part, because claim recites: "a pair of first grooves, each of which has a semicircular cross section" and "the wall part of one of the first and second assembling members corresponds to a position of the second groove of the other assembling member".

The aforementioned limitations in combination with all remaining limitations of claim 1, are believed to render the claim and all claims dependent therefrom patentable over the art of record.

US/6,496,096 to Kondo et al. is believed to be the closest reference to the present invention, disclosed (Fig. 3) a miniature fuse comprising: a box-like case including a first and a second plastic assembling members (4a, 4b) having the same form and comprising protruding walls (21), wherein the wall of one assembly member being insertable in the

Art Unit: 2835

matching groove formed in another assembly member (Fig. 2), but did not disclose a pair of first grooves, each of which has a semicircular cross section, as required by claim 1 of the instant application.

The Examiner has also cited the following pertinent to the present invention references:

US/4224592, 4349804, 4394638, 4531806, 4604602, 4608548, 4670729, 4712081, 6359543, 6452474, 6486766, 6542063, and EP/0899820 disclosed electrical fuses with housings of various types.

None of the cited references, either taken alone or in combination is believed to render the present invention unpatentable as claimed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anatoly Vortman whose telephone number is 571-272-2047. The examiner can normally be reached on Monday-Friday, between 10:00 am and 6:30 pm..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ms. Lynn Feild can be reached on 571-272-2092. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
